1.

 Comment. This type of report is furnished for the first time by a source. According to available information, a daily average of 500 to 600 cars crossed the Bad Schandau border station in each direction during the last 2 years. This corresponds to the volume of traffic stated in the present report. The railroad tank cars contained topped crude oil sent from Zistersdorf in Austria to East German hydrogenation plants. These shipments which amounted to 34,600 tons in March 1953 are directed through the Bad Schandau and Bad Brambach border stations.
